SMOOTHING THE PATH TO COMPLIANCE

Specialist vehicle inspection training with optional IRTEC accreditation

Our 1, 3 or 4 day course is provided for people who are heavily involved in the maintenance and preparation of vehicles for PMI and annual tests. The course is designed to provide candidates with the appropriate training to be able to accurately identify defects, make qualitative & quantitative (wear and tear) assessments and evaluate the condition of vehicles. The course has an optional IRTEC accreditation which is the benchmark for the industry and is valid for 5 years. This is an additional day on our standard course.

3 Day Course Content

- Based upon DVSA Inspection Manual
- Health & Safety
- Prohibitions
- Inspection procedures
- Develop inspection report writing skills
- Carry out Full Inspection
- Carry out roller brake test
- Calculate brake efficiency
- Testable items inspected at annual test
- Pass/fail criteria
- Assessment of component wear
- Brake performance testing and brake calculations
- Correct operation and safe use of testing equipment at the premises
- Correct inspection procedures inc. correct pass/fail application
- Practical exercise in vehicle inspection inc. Assessment of delegates Feedback and coaching

Who should attend

This course is provided for people who are heavily involved in the maintenance and preparation of vehicles for PMI and annual tests

Benefits

As a result of attending the course, and employing a more systematic approach to inspecting vehicles, candidates will maximise their chances of detecting defects that may otherwise attract an annual failure or prohibition notice.

Max 6 Delegates per course.

In-House Course. Lloyd Morgan Group certificated

1 Day Technical Update

For Vehicle inspectors that are already competent in vehicle inspections and wish to receive technical updates and refreshers on their Vehicle inspection techniques.

4 Day IRTEC

The 4 day Course content is the same as the 3 day course, except on day 4 the candidate takes the IRTEC assessments which consist of an on-line test and a vehicle inspection. The online test must be passed before they can take the practical assessment. All Candidates are informed on pass/fail.
