 SMOOTHING THE PATH TO COMPLIANCE

Whether you have 2 drivers or 20,000 drivers **Imglicence** is your solution to effectively managing your licence checks, without taking vast amounts of staff time and relying on the driving staff to provide their licences for you to check. **Imglicence** can check, car, bike, lorry, bus and coach licence holders at the click of a button.

**Imglicence** is a comprehensive and effective online tool for managing the driving licences of any member of staff driving on behalf of the company.

It will help to safeguard compliance with regulations and provides evidence to the authorities that you have effective systems and processes in place to ensure employees are entitled to drive.

**Imglicence** provides a secure deposit for driving licences of all employees that have to drive on company business. Licence details can be viewed irrespective of the drivers home, site or depot location once they are signed up.

A visual check of a drivers licence provides evidence of entitlement to drive at that point. However things can change very quickly and it is vital that organisations check licences at regular intervals. It is recommended that staff licences are checked quarterly. Using **Imglicence** is an easy, factual and fast process. You can have confidence that the information is up to date against the current DVLA records.

**Imglicence** is fully compatible with
